To Whom It May Concern:

On behalf of myself and United Air Lines, Inc. I would like to give our recommendation to Huey Ayala. Huey has been involved in painting United Airlines aircraft longer than I have been in my position. I first met Huey in August of 2001 where he and his crew repainted the first 777 in the world. Huey has been a part of many United aircraft repaints in the short time that I have known him, I trust him completely when it comes to painting our aircraft. Huey has great communication skills and knowledge of United's paint spec better than anyone that has ever painted our aircraft.

Huey is hard working and relates well with his subordinates and especially the customer. I can always count on Huey doing the right thing and not attempt to circumvent the system. I highly recommend Huey in any facet of aircraft finishing.

Regards,

Dave Gutierrez
